1. Eye and Vision Services

This section covers all Medicaid vision services provided through Opticians, Optometrists, and Ophthalmologists as deemed appropriate by the Department of Health and Welfare (DHW). These specialties are identified as vision services throughout this document.

Sections of the Idaho Medicaid Provider Handbook applicable in specific situations are listed throughout the handbook for provider convenience. Handbook sections that always apply to this provider type include the following:

- [General Billing Instructions](#);
- [General Information and Requirements for Providers](#); and
- [Glossary](#).

1.1. Provider Qualifications

Vision providers in any state are eligible to participate in the Idaho Medicaid Program. They must be licensed in the state where the services are performed and enrolled as an Idaho Medicaid provider with Idaho Medicaid prior to submitting claims for services. Providers must follow the guidelines in the provider handbook, in addition to all applicable state and federal rules and regulations.

See [General Information and Requirements for Providers](#), Idaho Medicaid Provider Handbook for more information on enrolling as an Idaho Medicaid provider.

1.2. Eligible Participants

Participants with Medicaid Basic and Enhanced Plans are eligible to receive vision services based on age restrictions. Providers must check participant eligibility prior to delivery of any service by calling Idaho Medicaid Automated Customer Service (MACS) at 1 (866) 686-4272; or through the Trading Partner Account on DXC Technology's [Idaho Medicaid](#) website.

Participants who are covered under a restricted program do not have vision benefits under Medicaid fee-for-service. These programs include, but are not limited to:

- Otherwise Ineligible Non-Citizens (OINC);
- Presumptive Eligibility (PE);
- Qualified Medicare Beneficiary (QMB) Program only, without another unrestricted Medicaid eligibility program open; and
- Medicare Medicaid Coordinated Plan (MMCP).

When billing for participants enrolled in other benefit plans, refer to [General Information and Requirements for Providers](#), Idaho Medicaid Provider Handbook for coverage.

1.2.1. Referrals

Vision services performed in the offices of ophthalmologists and optometrists, including the dispensing of eyeglasses, do not require a Healthy Connections (HC) referral. Procedures performed in an inpatient or outpatient hospital or ambulatory surgery center setting require a referral if the participant is enrolled in HC, Idaho's Medicaid primary care case management (PCCM) model of managed care. See [General Information and Requirements for Providers](#), Idaho Medicaid Provider Handbook for more information about HC requirements.

1.2.2. Age Restrictions

Participants under the age of 21 are eligible for:

- Examinations and vision testing once every 365 days without a prior authorization.

- Eyeglasses every four (4) years without a prior authorization.
- Contact lenses with a prior authorization.
- Additional services are covered with a prior authorization if medically necessary to correct or ameliorate defects.

Participants 21 years of age and older are not eligible for routine eye exams, eyeglasses, and contact lenses unless otherwise noted. They are eligible for:

- Examinations and vision testing necessary to monitor a chronic medical condition that may damage the eye such as diabetes. See [Appendix A](#) for preapproved diagnoses.
- Services to treat acute conditions that, if left untreated, may cause permanent or chronic damage to the eye. See [Appendix A](#) for preapproved diagnoses.
- One pair of eyeglasses or contact lenses following cataract surgery.
- Contacts to treat Keratoconus with a prior authorization.
- Contact lenses or eyeglasses when necessary to prevent further degradation of vision due to the existence of a chronic condition. A prior authorization request with supporting documentation should be submitted for review.

1.2.3. EPSDT Services for Participants Under 21

Services identified as a result of Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) and which correct or ameliorate a defect will not be subject to the existing amount, scope, and duration limitations, but require prior authorization. The medical necessity for the additional service must be documented. It must be proven safe, effective and accepted as a medical practice or treatment for the condition being addressed. Additional information for EPSDT may be found in the [General Information and Requirements for Providers](#), Idaho Medicaid Provider Handbook.

1.2.4. References: Eligible Participants

"Vision Services: Coverage and Limitations." *IDAPA 16.03.09, "Medicaid Basic Plan Benefits,"* Sec. 782. Department of Administration, State of Idaho, <https://adminrules.idaho.gov/rules/current/16/160309.pdf>.

"Vision Services: Participant Eligibility." *IDAPA 16.03.09, "Medicaid Basic Plan Benefits,"* Sec. 781. Department of Administration, State of Idaho, <https://adminrules.idaho.gov/rules/current/16/160309.pdf>.

1.3. Covered Services and Limitations

All vision supplies (contact lenses, frames, and lenses,) must be authorized by Medicaid's contractor National Vision Administrators (NVA). NVA has partnered with Classic Optical to furnish the supplies. Supplies obtained through any other lab will not be reimbursed by Idaho Medicaid. NVA will bill Medicaid directly for authorized items.

Providers can view and order vision supplies online from the NVA catalog by logging into the NVA website (www.e-nva.com). Orders can also be submitted by faxing 1 (888) 522-2022. All orders must contain an authorization number, which may be obtained on the NVA website or through the NVA Provider Hotline at 1 (877) 626-2969. Authorization numbers are automatically generated for eligible participants if the item does not require prior approval.

Providers without access to the internet or fax service can mail eyeglasses and contact lens orders with their authorization number to the following address:

Classic Optical
3710 Belmont Ave
Youngstown, OH 44505

Some lenses, services and specialty frames require prior authorization/prior approval; please refer to *the Prior Authorization section* for more information on how to submit a request.

1.3.1. Contact Lenses

Contact lenses will be covered for participants under the age of 21 with extreme myopia or hyperopia requiring a correction equal to, or greater than, minus or plus ten (10.0) diopters in at least one eye, cataract surgery, keratoconus, anisometropia, or other extreme medical conditions precluding the use of eyeglasses as defined by the Department.

Participants over the age of 21 are eligible for contact lenses when necessary to prevent further degradation of vision. Medicaid follows Medicare's [LCD \(L33793\)](#) for determining coverage.

Orders for contacts should be made through Classic Optical by completing the Contact Lens Order Form (available for download at www.e-nva.com after login). All contact lenses (HCPCS V2500 – V2599) require a prior authorization from NVA; please refer to *the Prior Authorization section* for more information on how to submit a request.

1.3.1.1. Contact Lens Bandage

Idaho Medicaid covers the fitting of contact lens for treatment of ocular surface disease for children and adults. The CPT® code 92071 does not require a prior authorization or KX modifier. The payment for the actual lens is included within the payment for 92071.

1.3.1.2. Contact Lenses for Keratoconus

Available for all ages, gas permeable contact lenses (HCPCS V2510 or V2511) and custom lenses (HCPCS V2599 with quantity 1 or 2) require a prior authorization which can be obtained by logging into the NVA website (www.e-nva.com) or by faxing a prior authorization form to 1-888-483-6830. Prior authorization requests should include the contact lens prior approval form and physician documentation to support the diagnosis of Keratoconus. When requesting custom lenses, note on the request form "custom made contacts for keratoconus, diagnosis H18.81."

If you need a fitting kit, contact NVA's partner, Classic Optical, to discuss the type of kit and/or specifications needed for special fit, custom-made contact lenses. You may reach Classic Optical at 1-888-522-2020 and a customer service representative will assist you, or by faxing a request to 1 (888) 522-2022. Fitting kits for Rose K, Jupiter, Custom Stable, McGuire or Dyna Intra Limbal gas permeable lenses are available. Kits are available free of charge with a prepaid return label. After the trial fit, please clean and disinfect the lenses before returning the kit.

There is a warranty period on custom lenses, during which time you may exchange the contacts. A new authorization is not needed if the contacts are under warranty. This is a no charge "exchange in place" replacement. The original unusable contact lenses must be returned to Classic Optical.

1.3.2. Frames and Lenses

Participants under the age of 21 are eligible for a frame (HCPCS V2020) and one set of single vision or bifocal lenses once every four (4) years without a prior authorization, except when there is a minimum Rx of 0.50 diopter in at least one eye considering both the spherical and cylindrical prescription. A booklet of available frames is available in [Appendix B](#).

Early Periodic Screening, Diagnosis and Treatment services (EPSDT) may allow for coverage earlier than the four-year limitation with a prior authorization from NVA and documentation of:

- A major visual change that is equal or greater than plus or minus 0.50 diopter in one eye considering both the spherical and cylindrical prescription; or
- The lenses or frame being lost, damaged beyond use, or the current frames having been outgrown; or
- New lenses being necessary, and the prescription cannot be accommodated in lenses which fit the existing frames.

Participants over the age of 21 are only eligible for eyeglasses when necessary to prevent further degradation of vision. Frames are only covered under HCPCS V2020. A prior authorization from NVA is necessary; please refer to *the Prior Authorization section* for more information on how to submit a request.

NVA will replace frames which break due to normal wear in the first 90 days. If repairs are needed after 90 days, the provider may bill Medicaid for the repairs using CPT® code 92370. If a participant has a history of repeatedly breaking frames, the vision provider should repair the frame, or request a sturdier frame (HCPCS V2020).

1.3.2.1. Lenses

Aspheric lenses (HCPCS V2410, V2430 and V2499) are covered with a prior authorization from NVA and documentation of a plus 8.0 diopter reading or greater.

High Index lens material is covered with a prior authorization from NVA and documentation of:

HCPCS	Criteria for Coverage
V2782	Minus 4.0 diopter to minus 9.75 diopter prescription in at least one eye. Both spherical and cylindrical prescription may be added together for the same eye if both numbers are a minus (-).
V2783	Minus 10.0 diopter or higher prescription in at least one eye. Both spherical and cylindrical prescription may be added together for the same eye if both numbers are a minus (-).

Lenticular Lens Material (HCPCS V2115, V2121, V2215, V2221) is covered with a prior authorization from NVA and documentation of equal to, or greater than, plus or minus 10.0 diopter prescription in at least one eye. Both the spherical and cylindrical prescription may be added together for the same eye if both numbers are a plus (+) or a minus (-).

Photochromatic lenses (HCPCS V2744) are not covered per IDAPA 16.03.09, "Medicaid Basic Plan Benefits."

Progressive lenses (HCPCS V2781) are not covered per IDAPA 16.03.09, "Medicaid Basic Plan Benefits."

Tinted lenses (HCPCS V2745) require a prior authorization from NVA with supporting documentation of medical necessity such as albinism. Lenses are not covered for cosmetic or convenience purposes.

Trifocal lenses (HCPCS V2300 – V2399) are not covered per IDAPA 16.03.09, "Medicaid Basic Plan Benefits."

1.3.2.2. Eye Glasses for Cataract Surgery

One pair of eyeglasses is covered for all ages following a recent cataract surgery. The Department follows the Medicare Coverage Determination Guidelines for cataract surgery. A prior authorization from NVA is necessary, unless the participant has Medicare primary. The prior authorization request must include the date of the cataract surgery, eye(s) treated and the surgeon's name.

1.3.2.3. Deluxe (Specialty) Frames

Deluxe (Specialty) frames (HCPCS V2025) require a prior authorization request to NVA with documentation of a medical condition that cannot be met by other frames. They are not available as a replacement for frequent breakage of V2020 frames.

Children under the age of three (3) may qualify with documentation of multiple V2020 frames trialed that do not fit. At a minimum these frames should be considered:

- Cutie metal (32-15-115, 32-15-120);
- L8005 (36-17-140, 38-17-140, 40-18-140); and
- Mainstreet 415 plastic with cable temple (33-20-115, 36-20-120, 39-20-125).

1.3.2.4. Miscellaneous Supply

All miscellaneous supply codes (HCPCS V2599, V2799) require a prior authorization from NVA. Documentation must include medical necessity, and why the request would be the least costly means of meeting the participant's needs.

1.3.2.5. References: Frames and Lenses

"Idaho Medicaid Vision Program." *MedicAide Newsletter*, September 2015,
<https://www.idmedicaid.com/MedicAide%20Newsletters/September%202015%20MedicAide.pdf>.

1.3.3. Fitting Fee/Dispensing Fee

Fitting or dispensing of glasses or contact lenses (CPT® 92072 and 92310–92317) does not require a prior authorization. The dispensing provider may bill Idaho Medicaid for fitting/dispensing when the new frames or lenses are covered by Medicaid and ordered from NVA.

1.3.4. Fundus Photography

Fundus examinations are included in the reimbursement for intermediate and comprehensive vision examinations. Fundus photography is not reimbursable by Idaho Medicaid for screening purposes, or diagnosis of vision conditions such as myopia, hyperopia, or astigmatism. Photography is only separately reimbursable when monitoring potential progression of a disease, or for guidance in evaluating the need for a specific treatment or intervention. If it will not guide future treatment, it is not medically necessary. When performed an interpretation and report must be included in the medical record, regardless of a modifier 52.

1.3.4.1. References: Fundus Photography

"Medicaid Program Integrity Unit: Billing Fundus Photography." *MedicAide Newsletter*, February 2018, <https://www.idmedicaid.com/MedicAide%20Newsletters/February%202018%20MedicAide.pdf>.

1.3.5. Non-Covered Services

The following services are not covered by Idaho Medicaid:

- Eye exercise;
- Services/supplies not medically necessary;
- Specific lenses not covered are listed in the Lenses section;
- Supplies which are not the least costly item that will reasonably and effectively meet the minimum requirements of the individual's medical needs; and
- Surgery on the cornea for myopic conditions.

Participants who desire additional features not covered by Medicaid may pay for them separately. The Medicaid contractor will bill the provider separately, and the provider may bill their usual and customary charge to the participant. If the participant cannot adapt to new lenses that were not originally covered by Medicaid, the participant is responsible for any additional charges. See the [General Information and Requirements for Providers](#), Idaho Medicaid Provider Handbook for information on billing a participant.

1.3.6. Refraction Procedure

Medicaid's reimbursement rate for exams includes determination of refractive state and should be part of every intermediate or comprehensive exam. The Department will not pay for an exam code and refraction code billed for the same date of service.

For participants under the age of 21, providers may bill a refraction (CPT® 92015) without the exam once a year. Determination of refractive state includes specification of lens type, lens power, axis, prism, absorptive factor, impact resistance, interpupillary distance and other necessary factors.

1.3.7. Tonometry

Tonometry (CPT® 92100) is considered included within a comprehensive visual exam. If an additional separate tonometry is needed, Medicaid will allow one (1) additional tonometry within the same 365-day period as the comprehensive exam. This limitation does not apply to participants receiving ongoing treatment for glaucoma.

1.3.8. Vision Exams

Idaho Medicaid requires the appropriate eye exam procedure code to be billed for routine eye exams. Instrument-based ocular screening (photo screening) may be used as part of a vision exam but is not separately reimbursable unless performed by a physician or a non-physician practitioner. If the participant requests a copy of their prescription, it must be provided to the participant. See [Eligible Participants](#) for age and plan restrictions.

Vision exams and testing are allowed once every 365 days without a prior authorization for participants under the age of twenty-one (21). Additional exams and testing must be prior authorized by the Medical Care Unit. See [Prior Authorization \(PA\) Requests](#) for information on submitting a request.

Examinations and vision testing are only covered for participants over twenty-one (21) when necessary to monitor a chronic medical condition that may damage the eye such as diabetes or for acute conditions that, if left untreated, may cause permanent or chronic damage to the

eye. A list of preapproved chronic and acute condition diagnosis codes is listed in [Appendix A](#), no prior authorization is necessary. A KX modifier **must be used** if an examination does **not** pertain to a preapproved diagnosis. Supporting medical documentation is required to be attached to the claim.

1.3.8.1. New and Established Patient Exams

A new patient is one who has not received any professional services for the last three (3) years from the physician or another physician of the same specialty who belongs to the same group practice. An established patient is one who has received professional services within the last three (3) years.

1.3.8.2. Comprehensive Ophthalmological Services

A comprehensive visual examination includes the following professional and technical vision services:

- Complete visual system examination;
- Medical history review;
- General medical observation;
- External and ophthalmoscopic examination;
- Determination of best-corrected visual acuity;
- Gross visual fields;
- Basic sensorimotor examination with cycloplegia or mydriasis;
- Tonometry;
- Refractive state;
- Initiation of diagnostic and treatment programs; and
- Other examination techniques that may be included in the fee for the comprehensive exam are:
 - Biomicroscopy;
 - Corneal sensitivity;
 - Corneal staining;
 - Fundus examination;
 - Keratometry;
 - Retinoscopy;
 - Slit lamp viewing, tear testing; and
 - Treatment programs.

1.3.8.3. Evaluation and Management

Evaluation and Management (E/M) Codes are used to report services provided in the physician's office related to eye injury or diseases affecting the eye. These codes do not require a prior authorization. Providers are required to use either the [1995](#) or [1997](#) evaluation and management (E&M) documentation guidelines to document E&M office and outpatient visits. Modifications to these guidelines include:

- Elimination of the requirement to document the medical necessity of a home visit instead of an office visit;
- Focusing documentation on changes and persisting problems since the last visit for established patients, provided the physician or non-physician practitioner indicate in the record the patient's medical record was reviewed and updated if necessary; and
- Clarification that practitioners do not need to re-enter the participant's chief complaint and history into the medical record if ancillary staff or the participant have already updated it. The practitioner only needs to indicate in the medical record that the information has been reviewed and verified.

1.3.8.4. Intermediate Ophthalmological Services

The participant is eligible for intermediate services if they do not require a comprehensive service for a routine eye exam or are being examined for a chronic, but stable, condition (i.e., known cataract). Intermediate Ophthalmological Services include medical examination and evaluation, with initiation or continuation of diagnostic and treatment program. This includes the following:

- Medical history review;
- General medical observations;
- External ocular and adnexal examination;
- Diagnostic procedures such as ophthalmoscopy, biomicroscope and tonometry along with a treatment regimen; and
- Mydriasis.

1.3.9. Vision Therapy

According to the American Optometric Association (AOA), vision therapy is "a sequence of neurosensory and neuromuscular activities individually prescribed and monitored by the doctor to develop, rehabilitate, and enhance visual skills and processing." Exercises are usually weekly over several months performed in the optometric office and supplemented with a prescribed concurrent at-home reinforcement program. The AOA also states that, "The vision therapy program is based on the results of a comprehensive eye examination or consultation, and takes into consideration the results of standardized tests, the needs of the patient, and the patient's signs and symptoms. The use of lenses, prisms, filters, occluders, specialized instruments, and computer programs are an integral part of vision therapy."

1.3.9.1. **Vision Therapy: Provider Qualifications**

Vision therapy is only reimbursable when administered by:

- An optometrist; or
- An occupational therapist or physical therapist that is;
 - Under the direct supervision of an optometrist;
 - Trained in vision therapy by the supervising optometrist; and
 - Following all requirements in the [Therapy Services – Occupational and Physical](#), Idaho Medicaid Provider Handbook, including billing under their own or their group NPI.

Direct supervision requires the optometrist to be physically available at the time and location of the services. Supervision of each therapist and each participant’s case must be documented. The supervising optometrist should review each case at daily or weekly intervals, and the plan of care must be reviewed and updated by the supervising optometrist as needed and at least every eight (8) weeks.

1.3.9.2. **Vision Therapy: Eligible Participants**

Vision Therapy is excluded from coverage under IDAPA 16.03.09, “Medicaid Basic Plan Benefits,” however, it may be available under the Children’s Medicaid program with a prior authorization through EPSDT for children 7-21 years of age with a diagnosis of:

ICD-10-CM	Description
H51.11–H51.12	Convergence insufficiency and excess
H52.521–H52.523	Paresis of accommodation
H52.531–H52.533	Spasm of accommodation

Diagnosis must be established with quantifiable measurements and symptoms. Vision therapy is not considered a medically necessary treatment for asymptomatic conditions, autism, behavioral vision therapy, reading or learning disorders including, but not limited to dyslexia.

1.3.9.3. **Vision Therapy: Coverage and Limitations**

Vision therapy is only reimbursable with a prior authorization, for an eligible participant when provided by an eligible provider, and with adherence to all Medicaid requirements. All vision therapy services should be billed under CPT® 92065 (Orthoptic and pleoptic training). Therapy is covered initially for one (1) hour per week for twelve (12) weeks, but more may be requested at the conclusion of the twelve (12) weeks with documentation of achieved progress and continued need. Sessions are to be one-on-one for an hour each, but half hour sessions may be authorized if the participant is unable to tolerate a full hour of treatment.

A concurrent at-home reinforcement program is the standard of care and considered medically necessary for treatment to continue. The participant or their caregiver must keep a training log. If the reinforcement program has not started by the second week of therapy, the provider must document the reason in the therapy record.

Only the following places of service are covered for vision therapy:

- 11 – Office;
- 19 – Off Campus – Outpatient Hospital; and
- 22 – On Campus – Outpatient Hospital.

Vision therapy is not covered for group therapy, telehealth or with home computer programs. At the end of the initial authorization if sufficient progress has not been achieved, requests

for additional visits will be denied as other interventions, or a referral to an ophthalmologist, may be more appropriate.

1.3.9.4. Vision Therapy: Additional Documentation

Providers must maintain documentation as required in the [General Information and Requirements for Providers](#), Idaho Medicaid Provider Handbook. Additionally, documentation must include:

- Results from an exam/evaluation completed by the qualified optometrist;
- Convergence Insufficiency Symptom Survey results (>16), if available;
- Baseline accommodative scores, if applicable;
- Baseline near point of convergence;
- Baseline positive fusional vergence at near (PFV);
- An individualized plan of care that includes:
 - Qualified diagnosis and symptomology;
 - Measurable short and long-term treatment goals;
 - A plan to train the parents and child for a concurrent in-home exercise program; and
 - A review and update every eight weeks by the supervising optometrist with:
 - Updated test results; and
 - Progress toward treatment goals;
- Treatment notes for each session that include:
 - Date of treatment;
 - Total time in minutes for treatment of CI or accommodation (time in and out);
 - Account of activity and results;
 - Objective measurement of the participant's response to the services; and
 - The name, signature and credentials of the person administering the therapy;
- Provider qualifications;
- Supervision documentation completed at daily or weekly intervals;
- If a scheduled session does not occur as scheduled, the provider must indicate in their records the reason the plan of care was not followed;
- Compliance with the concurrent at-home reinforcement program such as a daily log signed and dated by an adult participant or caretaker; and
 - If not started by the second week of therapy, the provider must document the reason in the therapy record.

1.3.9.5. Vision Therapy: Prior Authorization (PA) Requests

Prior authorization request forms are available on the [EPSDT webpage](#). Requests must be submitted to EPSDTRequest@dhw.idaho.gov or faxed Attn: EPSDT Request to 1 (208) 364-1811. Requests must be faxed individually for HIPAA compliance. Incomplete requests will be denied.

Requests may also be mailed to:

Attn: EPSDT Request
IDHW – Division of Medicaid
P.O. Box 83720
Boise, ID 83720-0036

The status of a prior authorization request may be checked by providers online at the [DXC Technology](#) portal under "Authorization Status", using your NPI, or by contacting DXC Technology at 1 (866) 686-4272.

Requests for prior authorization to initiate treatment should include:

- A completed [EPSDT Request Form](#);
- CPT® Code 92065 with prescribed amounts, frequency and duration;
- Results from an exam/evaluation completed by the qualified optometrist within the past three (3) months;
- Convergence Insufficiency Symptom Survey results (>16), if available;
- Baseline accommodative scores if the child has one of the specified disorders of accommodation;
- Baseline near point of convergence;
- Baseline positive fusional vergence at near (PFV);
- The diagnosis codes that qualify the child for vision therapy;
- The credentials of the person administering the therapy; and
- An individualized plan of care that includes:
 - Qualified diagnosis and symptomology;
 - Measurable short and long-term treatment goals; and
 - A plan to train the parents and child for a concurrent in-home exercise program.

Requests for prior authorization to continue treatment after twelve (12) weeks should include:

- A completed [EPSDT Request Form](#).
- CPT® Code 92065 with prescribed amounts, frequency and duration;
- Current progress evaluation by supervising optometrist including updated test results, progress toward treatment goals, and confirmation of continuing medical direction and evaluation;
- Documentation of compliance with the concurrent at-home reinforcement program such as a daily log signed and dated by an adult participant or caretaker; and
- Treatment notes for each session that include:
 - Date of treatment;
 - Total time in minutes for treatment of CI or accommodation (time in and out);
 - Account of activity and results;
 - The name and credentials of the person administering the therapy; and
 - Subject and objective narratives, if applicable; and
- Updated individualized plan of care.

1.4. Documentation Requirements

Documentation requirements applicable in specific situations are listed throughout the handbook for provider convenience. General documentation requirements are also required

and found in the [General Information and Requirements for Providers](#), Idaho Medicaid Provider Handbook.

1.5. Prior Authorization (PA) Requests

1.5.1. Prior Authorization (PA) Requests: Medical Care Unit

The Medical Care Unit reviews requests for vision exams that exceed limitations. The required request form is available on the [Medical Care Vision Services](#) webpage. Completed request forms should be e-mailed to medicalcareunit@dhw.idaho.gov or faxed to 1 (877) 314-8779. Requests must be faxed individually for HIPAA compliance. Incomplete requests will be denied.

The status of a prior authorization request for may be checked by providers online at the [DXC Technology](#) portal under "Authorization Status", using your NPI, or by contacting DXC Technology at 1 (866) 686-4272.

1.5.2. Prior Authorization (PA) Requests: NVA

National Vision Administrators (NVA) reviews prior authorization requests for glasses and contact lenses. Prior authorizations, or prior approvals, are valid beginning the date they are received by NVA and are valid for two (2) months from the date of authorization. The required request forms are available by logging into NVA's website (www.e-nva.com). Requests should be submitted on NVA's website or faxed to 1 (888) 483-6830. Requests must be faxed individually for HIPAA compliance. Incomplete requests will be denied.

Requests may also be mailed to:

National Vision Administrators, L.L.C.
Attn: Idaho Medicaid Prior Approvals
1200 Route 46 West
Clifton, NJ 07013

Providers can view the outcome of the review by logging into their account at www.e-nva.com, or calling 1 (877) 626-2969.

1.6. Reimbursement

Idaho Medicaid reimburses medically necessary vision services on a fee-for-service basis. Usual and customary fees are paid up to the Medicaid maximum allowance. Some participants may be responsible for a co-pay for services. NVA will bill Medicaid for any vision supplies.

See the [General Billing Instructions](#), Idaho Medicaid Provider Handbook regarding policy on billing, co-pays, prior authorization, and requirements for billing all other third-party resources before submitting claims to Medicaid.

See the [General Information and Requirements for Providers](#), Idaho Medicaid Provider Handbook for information on when billing a participant is allowable.

1.6.1. Medicare Crossovers for Vision Services

No prior authorization is necessary for Medicare recipients of covered services. The provider may supply products from any lab they choose and bill Medicare. If National Vision Administrators (NVA) is used, NVA will bill Medicare for the provider. In both cases, the claim will automatically crossover to Medicaid, which will pay the co-insurance/deductible. Normally

Medicare allows more than Medicaid due to contract prices, so no additional payment may be made.

1.6.2. Third Party Insurance Billing

Medicaid is the payer of last resort. If a Medicaid participant has other insurance for vision services, then the other insurance must be billed prior to billing Medicaid. Idaho Medicaid does not require an explanation of benefits to be submitted for vision supplies ordered from Medicaid's vision products contractor. **NVA** will deliver the requested supplies and bill the third-party insurance.

If the other insurance company requires an alternate provider of vision hardware, the participant must choose between the Medicaid product and the non-Medicaid product. Medicaid will not provide reimbursement for the non-Medicaid product. See the [General Information and Requirements for Providers](#), Idaho Medicaid Provider Handbook for information on when billing a participant is allowable.

Appendix A. Preapproved Diagnoses for Chronic and Acute Conditions

The following ICD-10-CM diagnosis codes have been identified by the Department as indicating a covered chronic condition requiring periodic vision exams or an acute condition that may damage the eye. Diagnosis codes that are unspecified for which eye is affected within the listed ranges are not covered.

ICD-10-CM	Description
A18.51 – A18.59	Tuberculous of eye
B00.50 – B00.59	Herpesviral ocular disease
B02.30 – B02.39	Zoster ocular disease
B60.12	Conjunctivitis due to Acanthamoeba
B60.13	Keratoconjunctivitis due to Acanthamoeba
C71.0 – C71.9	Malignant neoplasm of brain
D31.0 – D31.92	Benign neoplasm of eye and adnexa
D51.0	Vitamin B12 deficiency anemia due to intrinsic factor deficiency
D86.0 – D86.9	Sarcoidosis
E05.00	Thyrotoxicosis with diffuse goiter without thyrotoxic crisis or storm
E08.00 – E08.9	Diabetes mellitus due to underlying condition
E09.00 – E09.9	Drug or chemical induced diabetes mellitus
E10.10 – E10.9	Type 1 diabetes mellitus
E11.00 – E11.9	Type 2 diabetes mellitus
E13.00 – E13.9	Other specified diabetes mellitus
E78.00 – E78.01	Pure hypercholesterolemia
G24.5	Blepharospasm
G30.0 – G30.9	Alzheimer's disease
G31.01 – G31.1	Frontotemporal dementia
G35	Multiple sclerosis
G36.0	Neuromyelitis optica [Devic]
G43.109	Migraine with aura, not intractable, without status migrainosus
G43.609	Persistent migraine aura with cerebral infarction, not intractable, without status migrainosus
G45.3	Amaurosis fugax
G91.0 – G91.3	Hydrocephalus
G91.8	Other hydrocephalus
G91.9	Hydrocephalus, unspecified
G93.2	Benign intracranial hypertension
G93.7	Reye's syndrome
H00.011 – H00.19	Hordeolum (externum) (internum) of eyelid
H01.001 – H01.9	Blepharitis
H02.001 – H02.9	Other disorders of eyelid
H04.001 – H04.9	Disorders of lacrimal system

H05.00 – H05.9	Disorders of orbit
H10.011 – H10.9	Conjunctivitis
H11.001 – H11.9	Other disorders of conjunctiva
H15.001 – H15.9	Scleritis
H16.001 – H16.9	Keratitis
H17.00 – H17.9	Corneal scars and opacities
H18.001 – H18.9	Other disorders of cornea
H20.00 – H20.9	Iridocyclitis
H21.00 – H21.9	Other disorders of iris and ciliary body
H22	Disorders of iris and ciliary body in diseases classified elsewhere
H25.011 – H25.9	Age-related cataract
H26.001 – H26.9	Other cataract
H27.00 – H27.9	Other disorders of lens
H28	Cataract in diseases classified elsewhere
H30.001 – H30.93	Chorioretinal inflammation
H31.001 – H31.9	Other disorders of choroid
H32	Chorioretinal disorders in diseases classified elsewhere
H33.001 – H33.8	Retinal detachments and breaks
H34.00 – H34.9	Retinal vascular occlusions
H35.00 – H35.9	Other retinal disorders
H36	Retinal disorders in diseases classified elsewhere
H40.001 – H40.9	Glaucoma
H42	Glaucoma in diseases classified elsewhere
H43.00 – H43.9	Disorders of vitreous body
H44.001 – H44.9	Disorders of globe
H46.00 – H46.9	Optic neuritis
H47.011 – H47.9	Other disorders of optic [2nd] nerve and visual pathways
H49.00 – H49.43	Paralytic strabismus
H49.881 – H49.9	Other paralytic strabismus
H50.00 – H50.9	Other strabismus
H51.0 – H51.9	Other disorders of binocular movement
H53.10 – H53.139	Subjective visual disturbances, transient or sudden visual loss
H53.15 – H53.489	Visual disturbances
H53.60 – H53.9	Night blindness, vision sensitivity deficiencies, other or unspecified visual disturbances
H54.0 – H54.2X22	Blindness and low vision
H54.40 – H54.52A2	Blindness and low vision, one eye
H55.00 – H55.89	Nystagmus and other irregular eye movements
H57.00 – H57.9	Other disorders of eye and adnexa
H59.331 – H59.43	Intraoperative and postprocedural complications and disorders of eye and adnexa, not elsewhere classified

I69.998	Other sequelae following unspecified cerebrovascular disease
K26.0	Acute duodenal ulcer with hemorrhage
K50.90 – K50.919	Crohn's disease, unspecified
K51.00 – K51.919	Ulcerative colitis
L40.50 – L40.59	Arthropathic psoriasis
M02.30 – M02.39	Reiter's disease
M05.00 – M05.9	Rheumatoid arthritis with rheumatoid factor
M06.00 – M06.9	Other rheumatoid arthritis
M08.00 – M08.09	Unspecified juvenile rheumatoid arthritis
M08.20 – M08.99	Juvenile arthritis
M12.00 – M12.09	Chronic post rheumatic arthropathy [Jaccoud]
M32.0 – M32.9	Systemic lupus erythematosus (SLE)
M34.0 – M34.9	Systemic sclerosis [scleroderma]
M35.00 – M35.09	Sicca syndrome [Sjogren]
M35.2	Behcet's disease
N18.1 – N18.9	Chronic kidney disease
Q01.0 – Q01.9	Encephalocele
Q02	Microcephaly
Q03.0 – Q03.9	Congenital hydrocephalus
Q04.0 – Q04.6	Other congenital malformations of brain
Q05.0 – Q05.9	Spina bifida
Q07.00 – Q07.03	Arnold-Chiari syndrome
Q10.0 – Q10.7	Congenital malformations of eyelid, lacrimal apparatus and orbit
Q11.0 – Q11.3	Anophthalmos, microphthalmos and macrophthalmos
Q12.0 – Q12.9	Congenital lens malformations
Q13.0 – Q13.9	Congenital malformations of anterior segment of eye
Q14.0 – Q14.9	Congenital malformations of posterior segment of eye
Q15.0 – Q15.9	Other congenital malformations of eye
Q85.00	Neurofibromatosis, unspecified
Q85.01	Neurofibromatosis, type 1
Q85.03	Schwannomatosis
Q85.09	Other neurofibromatosis
R44.1	Visual hallucinations
R48.3	Visual agnosia
R73.03	Prediabetes
S00.201A – S00.279S	Other and unspecified superficial injuries of eyelid and periorcular area
S02.101A – S02.109S	Unspecified fracture of base of skull
S02.11AA – S02.11HS	Fracture of occiput

S02.121A – S02.122S	Fracture of orbital roof
S02.30XA – S02.32XS	Fracture of orbital floor
S02.40AA – S02.40FS	Malar fracture and Zygomatic fracture
S02.601A – S02.602S	Fracture of unspecified part of body of mandible
S02.610A – S02.652S	Fracture of condylar process, subcondylar process, coronoid process, angle, or ramus of mandible
S02.670A – S02.672S	Fracture of alveolus of mandible
S02.80XA – S02.82XS	Fracture of other specified skull and facial bones
S02.831A – S02.832S	Fracture of medial orbital wall
S02.841A – S02.842S	Fracture of lateral orbital wall
S02.85XA – S02.85XS	Fracture of orbit, unspecified
S03.00XA – S03.03XS	Dislocation of jaw
S05.00XA – S05.02XS	Injury of conjunctiva and corneal abrasion without foreign body
S05.90XA – S05.90XS	Unspecified injury of unspecified eye and orbit
T85.21XA – T85.398S	Mechanical complication of intraocular lens or other ocular prosthetic device
Z79.3	Long term use of hormonal contraceptives
Z79.891	Long term (current) use of opiate analgesic
Z79.899	Other long term (current) drug therapy
Z96.1	Presence of intraocular lens
